PROFILE SUMMARY

Early-career Software Engineer with 2+ years of professional experience specializing in Flutter-based mobile application development for Android, iOS, and Desktop. Strong foundation in Clean Architecture, BLoC state management, and API-driven applications. Experienced in delivering production-grade apps used by real users, with a strong focus on code quality, scalability, and collaboration. Eager to grow within an AI-first engineering culture, adopt TDD practices, and deepen expertise across Flutter, Android, and iOS ecosystems.

CORE SKILLS

Mobile & Frontend

- Flutter (Android, iOS, Desktop)
- Dart
- SwiftUI (iOS)
- Responsive UI & Custom Widgets

Architecture & State Management

- Clean Architecture (Presentation, Domain, Data layers)
- BLoC Pattern
- MVVM (SwiftUI)

Backend & Data

- REST API Integration
- Firebase Firestore
- SQLite, Core Data, SwiftData
- MySQL (basic)

Quality & Engineering Practices

- Unit & Widget Testing (learning & applying)
- Test-Driven Development (TDD – growing proficiency)
- Code Reviews & Agile Development
- Git & GitHub (version control)

Tools & Workflow

- GitHub
- Postman
- AI-assisted development tools (Copilot familiarity)
- Agile / Scrum environment

PROFESSIONAL EXPERIENCE

Junior Programmer

ATI Limited | Dhaka
2023 – Present

- Develop and maintain Flutter applications across Android, iOS, and Desktop platforms.
- Implement Clean Architecture principles to ensure separation of concerns and scalable codebases.
- Use BLoC and GetX for predictable state management.
- Integrate REST APIs and Firebase Firestore for real-time data handling.
- Collaborate with cross-functional teams through code reviews, sprint planning, and deployments.
- Actively improve code quality, performance, and UI consistency based on feedback.

Junior Implementation Coordinator

ATI Limited | Dhaka
2022 – 2023

- Worked closely with developers and stakeholders to support software implementation and delivery.
- Assisted in requirement analysis, testing, and deployment coordination.
- Built strong communication skills working in a **hybrid and collaborative environment**.

PROJECT EXPERIENCE

LAAN POS System

Client: LAAN TECH USA
Role: Flutter Developer
Platform: Android

- Developed a POS system for sales, inventory tracking, and invoice generation.
- Ensured smooth user experience for business operations.

EMR & Patient Registration System

Client: Khaja Yunis Ali College Hospital
Role: Flutter Developer
Platform: Desktop

- Built a desktop application for **Electronic Medical Records (EMR)** and patient registration.
- Designed scalable data flows and modular UI components.
- Collaborated with stakeholders to deliver a real-world healthcare solution.

Tech Stack: Flutter, Dart, Firebase Firestore, REST APIs

Vascular BD *(Live on Google Play Store)*

Role: Flutter Developer
Platform: Android

- Developed a patient-facing medical app for appointment booking and content delivery.
- Implemented API integrations and Firebase Firestore for dynamic content.
- Focused on clean UI, performance optimization, and maintainability.

Tech Stack: Flutter, Dart, Firebase Firestore, REST APIs

JRC ERP

Client: JRC POWER TECH.
Role: Flutter Developer
Platform: Android & iOS

- • Developed employee-centric modules including remote attendance, employee movement tracking, leave management, and meal management.
  • Integrated these modules into the ERP ecosystem to ensure accurate workforce monitoring and streamlined HR operations.

THP SR & THP Online *(Live on Apple App Store)*

Role: iOS Developer
Platform: iOS

- Developed iOS applications using **SwiftUI and MVVM architecture**.
- Integrated networking with Alamofire and local persistence using SQLite.
- Built reusable UI components and optimized performance.

Tech Stack: SwiftUI, Swift, Alamofire, SQLite

EDUCATION

B.Sc. in Computer Science & Engineering
Eastern University, Dhaka
2023 | CGPA: **3.56 / 4.00**

HSC – Dhaka Residential Model College | GPA: 4.75
SSC – The Carter Academy, Cumilla | GPA: 5.00
